WORK EXPERIENCE

Sael | Nairobi, Kenya

Freelance Web Developer | Jan 2025 – Oct 2025

Designed and developed fully responsive, user-friendly e-commerce websites for small and mid-sized businesses across sectors such as fashion, retail, and digital products.

- Collaborated with business owners to understand customer needs, resulting in conversion-optimized UIs that increased sales by up to 30% for some clients.
- Integrated secure payment gateways, shopping carts, and inventory management systems using HTML, CSS, JavaScript, React, Node.js, and MongoDB.
- Reduced website load time by an average of 40% through performance optimization, improving user retention and SEO ranking.

EDUCATION

The University of Nairobi | Nairobi, Kenya

Bachelor of Science – Statistics and Programming | Aug 2024 – Present

- Currently pursuing a degree with a strong foundation in statistics, mathematics, and programming.
- Actively applying academic knowledge to real-world projects, group discussions, and freelance work.
- Balancing studies with hands-on experience in tech, web development, and innovation.

Power Learn Project | Nairobi, Kenya

Software Engineering | Jun 2025 – Dec 2025

- Intensive hands-on training in MERN stack, web development, version control (Git/GitHub), Agile methodologies, and team collaboration.
- Built real-world web applications, practiced pair programming, and participated in industry-led mentorship.
- Gained practical skills in front-end and back-end development, APIs, deployment, and teamwork.

SKILLS

MERN Stack (MongoDB, Express, React, Node.js), HTML, CSS, JavaScript, Git & GitHub, UI/UX Design, REST APIs, Deployment, Agile Development
